

United Research World Prayer Focus

May 2002 - Israel

submitted by Kaye Brett

The May prayer focus is to continue to support the peace process in Israel. This situation goes back to Abraham who fathered two sons with two different women. The tribe of each son has been in conflict for a long time.

Our prayers can make a difference no matter how long this conflict has reigned. Our prayers can be instrumental in creating peace beyond understanding. It is our joy to help the states of two brothers come together in peace.
